# The Value of a Board Certified Audiologist

Our family's life was transformed the day we met our daughter's audiologist. In her, we met a professional of the highest quality, and in addition, we met a profoundly sensitive and caring person. Beforehand we had no idea there was a difference in an audiologist's training—but we quickly realized our misconception!

We came to recognize the personal and professional value of seeking the services of a Board Certified audiologist. In the 15 years she has worked with our daughter, Anna, and our family, her credentials have shined brightly. Her deep level of expertise, coupled with her strong ethics won our respect and admiration. It is clearly evident that she has, and still does, complete hours and hours of continuing education.

Our audiologist's expertise and her personal gifts have met the hearing and development needs of our daughter. She has provided the best of care, making certain that Anna has the finest hearing aid that technology can offer and that she has the right hearing aid for her hearing loss and her lifestyle.

In addition, our audiologist gave leadership to our effort to instill in Anna an acceptance of her hearing loss—to even view it as a gift. Together, our endeavor has reaped rewards far beyond our big dreams! Anna is proud of who she is, and works to educate the world about hearing loss and about finding the best hearing services. She points others to ABA certified audiologists! 🗣️
